October 16, 2005  
Whitefish, Montana

The **Montana Card Company** began as a pocket-sized idea in the home studio of Clint & Alisha Walker in Whitefish, Montana. Realizing that his characteristically true Montana photo works were beginning to receive national recognition, Clint became inspired to share his "mind's-eye"® images across our nation and around the world through Limited Edition prints. Alisha began the **Montana Card Company** to place those "mind's-eye"® moments in your hands.

**"Capturing Life One Frame at a Time"®** has become my life work," says husband, photographer Clint Walker. "Those who enjoy the outdoors like we do know all too well those special moments that occur when we least expect them—and that we rarely ever capture to share with others. The personal connection with nature as your hands release a fish into a cool stream, the warm glow of the sun on a buck's antlers as he grazes the hillside, the pride felt during your dog's blind retrieve of quarry, or that mountain-top experience...the **Montana Card Company** provides me with the opportunity to share those moments with the world, and you to share them with others." Clint adds. **MCC** offers these moments and more through their full line of superior quality greeting cards to those who have a passion and respect for the great outdoors.

Each richly detailed 4x6 photo is affixed to 140 lb. gently textured white cotton rag card stock paper, which features deckle-edged styling for an impressive presentation. The cards are left blank inside, awaiting your personal sentiment. In a world of quick emails and forwarded messages, how nice it is to receive a hand-written card from someone special in your life...

**MCC** cards can be purchased for \$3.95 each (includes shipping) by visiting [www.MontanaCardCompany.com](http://www.MontanaCardCompany.com) or directly through one of our authorized dealers. Check our website for an **MCC** dealer in your area.

End.
